

CONTENTS OF ANIMAL FEED SCIENCE AND TECHNOLOGY, VOLUME 23

VOL. 23 NOS. 1-3

APRIL 1989

Special Issue: Dietary Fibre in Monogastric Nutrition

Preface	vii
Measuring dietary fiber	
J.A. Marlett (Madison, WI, U.S.A.)	1
Determination of soluble fiber components: (1->3; 1->4)- β -D-glucans and pectins	
J.L. Jeraci and B.A. Lewis (Ithaca, NY, U.S.A.)	15
Classification and measurement of plant polysaccharides	
H. Englyst (Cambridge, Gt. Britain)	27
Absorption of short-chain fatty acids and their role in the hindgut of monogastric animals	
W. von Engelhardt, K. Rönna, G. Rech Kemmer (Hannover, F.R.G.) and T. Sakata (Kunitachi, Japan)	43
Secretory response of the pig gut to non-starch polysaccharides	
A.G. Low (Reading, Gt. Britain)	55
Digestion of diets containing molassed or plain sugar-beet pulp by growing pigs	
A.C. Longland and A.G. Low (Reading, Gt. Britain)	67
Characterization of the flora of the large bowel of pigs: a status report	
M.J. Allison (Ames, IA, U.S.A.)	79
Fibre-degrading microorganisms in the monogastric digestive tract	
G. Fonty and Ph. Gouet (Ceyrat, France)	91
Assessing the importance of host-derived polysaccharides as carbon sources for bacteria growing in the human colon	
A.A. Salyers and R.E. McCarthy (Urbana, IL, U.S.A.)	109
In vitro fermentation of dietary fiber by human fecal organisms	
J.L. Jeraci (Ithaca, NY, U.S.A.) and P.J. Horvath (Buffalo, NY, U.S.A.)	121
Approach to the energetic importance of fibre digestion in pigs. I. Importance of fermentation in the overall energy supply	
N.A. Dierick, I.J. Vervaeke, D.I. Demeyer and J.A. Decuyper (Melle, Belgium)	141
Approach to the energetic importance of fibre digestion in pigs. II. An experimental approach to hindgut digestion	
I.J. Vervaeke, N.A. Dierick, D.I. Demeyer and J.A. Decuyper (Melle, Belgium)	169
Digestion and fermentation pattern of various dietary fiber sources in the rat	
M. Champ, J.L. Barry, C. Hoebler and J. Delort-Laval (Nantes, France)	195
Plant cell walls and monogastric diets	
O. Theander, E. Westerlund, P. Åman and H. Graham (Uppsala, Sweden)	205
The rumen as a model of the microbiology of fibre digestion in the human intestine	
C. Henderson (Aberdeen, Gt. Britain) and D.I. Demeyer (Melle, Belgium)	227
The physiological effects of cellulose in the human large intestine	
A.M. Stephen (Saskatoon, Sask., Canada)	241
Dietary fiber and energy balance: integration of the human ileostomy and in vitro fermentation models	
M.I. McBurney and L.U. Thomson (Toronto, Ont., Canada)	261

Efficacy of supplemental dietary neutralizing agents for lactating dairy cows. A review C.R. Staples and D.S. Lough (Gainesville, FL, U.S.A.)	277
Comparative fiber degradation by mixed rumen fungi from Australian and U.S.A. cattle D.E. Akin, L.L. Rigsby (Athens, GA, U.S.A.) and G.L.R. Gordon (Blacktown, N.S.W., Australia)	305
Fermentation and utilization by lambs of sugarcane harvested fresh and ensiled with and without NaOH. 4. Ruminant kinetics E. Alcántara, A. Aguilera (Mexico, D.F., Mexico), R. Elliott (Merida, Yuc., Mexico) and A. Shimada (Queretaro, Qro., Mexico)	323
A comparison between fermentation heat of forages and organic matter digestibility determined by in vitro incubation with rumen fluid A. Arieli and D. Werner (Rehovot, Israel)	333
Compositional quality of certain unconventional calcium and phosphorus sources in India for use as mineral supplements for livestock D. Lall and T. Prasad (Karnal, India)	343
Book Reviews	
Lignocellulose	349
Grasslands	350
Grassland systems	352
Author Index	355
